INDEX OF SUBJECTS AND AUTHORS

Accessory pulmonary lobe (azygos lobe), The physical signs incident to an, 286

Acoustics, pulmonary, Studies on. IV. Notes on percussion and on forced vibrations, 347

Action of the musculi intercartilaginei, The, 497

Active principle, growth-promoting, in the potato, The nature of the, 203

Acute miliary tuberculosis of the liver, 593

Address of the president, 337

Adenitis, tuberculous cervical, relationship of, to pulmonary tuberculosis, A study of the, 598

Ammonium malate as a source of nitrogen for tubercle bacilli in cultures, 568

Anatomical and physiological aspects of the diaphragm, 685

—— characteristics of tuberculosis in Jamaica, 613

—— variations, The relation of, to physical diagnosis. I. The physical signs incident to an accessory pulmonary lobe (azygos lobe), 286

ANDERSON, R. J., AND ROBERTS, E. GILMAN. Concerning the carbohydrates associated with the ether-soluble lipoids of tubercle bacilli, 664

Annular shadows in roentgenograms of the chest, Localized pneumothoraces as a cause of, 531

Anomalies in artificial pneumothorax treatment, 717

Artificial pneumothorax, Extrapleural thoracoplasty in the presence of, 734

—— —— treatment, Anomalies in, 717

Asbestosis, Pulmonary, 571

Aspergillosis, Primary, of the lungs, 267

Atelectasis, massive, fibrinous bronchitis complicated by, A case of, 82

Attempt to influence the growth of the tubercle bacillus in the animal body by modifying the concentration of a growth-promoting substance (glycerol) in the tissues, An, 636

AYCOCK, THOMAS BAYRON, AND HABLISTON, CHARLES C. Radical phrenicotomy, 757

(Azygos lobe), The physical signs incident to an accessory pulmonary lobe, 286

Bacilli, tubercle, bovine, growth of, on Long's synthetic medium, Some chemical changes accompanying the, 116

——, ——, carbohydrates associated with the ether-soluble lipoids of, Concerning the, 664

——, ——, nitrogen for, in cultures, Ammonium malate as a source of, 568

Bacillus, ——, sensitization of cattle to tuberculin by other than, The, 218

——, ——, growth of the, in the animal body, An attempt to influence the, by modifying the concentration of a growth-promoting substance (glycerol) in the tissues, 636

——, ——, in clinical specimens, variations of, The, 443

——, ——, primary infection and reinfection with, The cellular reactions to, 379

Bacterial derivatives, Biochemical studies of. XII, 669

—— ——, —— —— ——. XIII, 678

—— ——, —— —— ——. XIV, 682

BALLON, HARRY C., AND SINGER, J. J. Streptothricosis, 233

BEACH, B. A., THOMPSON, ISABEL, AND HASTINGS, E. G. The sensitization of cattle to tuberculin by other than tubercle bacilli, 218

Biochemical studies of bacterial derivatives. XII, 669

—— —— —— —— ——. XIII, 678

—— —— —— —— ——. XIV, 682

Biological processes, Carbohydrates in, 655
Bishop, F. W., Lee, Y. W., Scott, W. J. M., and Lyman, R. S. Studies on pulmonary acoustics. IV. Notes on percussion and on forced vibrations, 347
Blood-serum in pulmonary tuberculosis, calcium concentration of the, effect of the oral administration of irradiated ergosterol on the, A note on the, 48
Bovine tubercle bacilli, growth of, on Long's synthetic medium, Some chemical changes accompanying the, 116
Brachman, D. S. Immunization against tuberculosis by the Langer vaccine, 226
Breuer, Miles J. The treatment of the "early" case of tuberculosis, 57
Briskman, A. Lee. Red-cell sedimentation and the Schilling differential leucocyte count, 562
Bronchi, The relations of the intrapulmonary lymphoid tissue to the, in the rabbit, 413
Bronchitis, fibrinous, complicated by massive atelectasis, A case of, 82
Bruns, E. H., and Casper, Joseph. Thoracoplasty in the treatment of chronic pulmonary tuberculosis, 739

Calcium concentration of the blood-serum in pulmonary tuberculosis, effect of the oral administration of irradiated ergosterol on the, A note on the, 48
Calcium, Serum-, in pneumonoconiosis, 449
Cancer, Tuberculosis and, 271
Cantarow, A., and Sokoloff, Martin J. Serum-calcium in pneumonoconiosis, 449
Carbohydrates associated with the ether-soluble lipoids of tubercle bacilli, Concerning the, 664
—— in biological processes, 655
Case of fibrinous bronchitis complicated by massive atelectasis, A, 82
Casper, Joseph, and Bruns, E. H. Thoracoplasty in the treatment of chronic pulmonary tuberculosis, 739
Cattle, The sensitization of, to tuberculin, by other than tubercle bacilli, 218
Cellular reactions to primary infection and reinfection with the tubercle bacillus, The. II. The cells of peritoneal exudate produced by the local injection of tubercle bacilli into normal sensitized guinea pigs, 379
Cervical adenitis, tuberculous, relationship of, to pulmonary tuberculosis, A study of the, 598
Chadwick, Henry D., and Zacks, David. The incidence of tuberculous infection in school children, 626
Characteristics, Anatomical, of tuberculosis in Jamaica, 613
Chemical changes accompanying the growth of bovine tubercle bacilli on Long's synthetic medium, Some, 116
—— view of the pathogenesis of tuberculosis, A, 467
Chest, roentgenograms of the, Localized pneumothoraces as a cause of annular shadows in, 531
Children, school, tuberculous infection in, The incidence of, 626
Chronic pulmonary infections, Subacute and, commonly mistaken for pulmonary tuberculosis, 491
—— —— tuberculosis, treatment of, Thoracoplasty in the, 739
Clinical specimens, tubercle bacillus in, The variations of the, 443
Codliver oil, Irradiated, and eosin in pulmonary tuberculosis, 53
Collapse, pulmonary, The influence of, on the electrocardiogram, 320
—— therapy in pulmonary tuberculosis, 780
Comparison of the intracerebral method with other methods of inoculating guinea pigs for the diagnosis of tuberculosis, A, 514
Complement-fixation test in tuberculosis, The, 539
Concentration, sputum, incubation method of, A review of the, 420
Cooper, Alexander T. Phrenicoexairesis in pulmonary tuberculosis, 769
Course of tuberculosis in the lungs, The, 710
Cultures, nitrogen for tubercle bacilli in, Ammonium malate as a source of, 568
Cutler, Jacob W. An improved technique for selective pneumothorax, 292

Davidson, Doris L., and Kaminsky, Jacob. A note on the effect of the oral administration of irradiated ergosterol

on the calcium concentration of the blood-serum in pulmonary tuberculosis, 48

De Porte, J. V. Some aspects of the recorded and resident mortality from tuberculosis in New York State in 1927 and 1928, 87

Diagnosis and treatment of pulmonary tuberculosis, Immunobiology in the, 455

—— of tuberculosis, A comparison of the intracerebral method with other methods of inoculating guinea pigs for the, 514

——, physical, The relation of anatomical variations to. I. The physical signs incident to an accessory pulmonary lobe (azygos lobe), 286

Diaphragm, Anatomical and physiological aspects of the, 685

Differential leucocyte count, Schilling, Red-cell sedimentation and the, 562

"Early" case of tuberculosis, The treatment of the, 57

Effect of the oral administration of irradiated ergosterol on the calcium concentration of the blood-serum in pulmonary tuberculosis, A note on the, 48

—— —— ultraviolet irradiation on tuberculous peritonitis in guinea pigs, The, 35

Effusions, Pleural, 121

Electrocardiogram, The influence of pulmonary collapse on the, 320

Electrocardiographic and roentgenographic studies of the heart in tuberculosis, 310

Eosin, Irradiated codliver oil and, in pulmonary tuberculosis, 53

Epidemiology of tuberculosis of negroes, The, 603

Ergosterol, irradiated, oral administration of, A note on the effect of the, on the calcium concentration of the blood-serum in pulmonary tuberculosis, 48

Ether-soluble lipoids of tubercle bacilli, carbohydrates associated with the, Concerning the, 664

Exairesis of the phrenic nerve in the treatment of pulmonary tuberculosis, 1

Extrapleural thoracoplasty in the presence of artificial pneumothorax, 734

Feldman, William H., and Magath, Thomas B. A comparison of the intracerebral method with other methods of inoculating guinea pigs for the diagnosis of tuberculosis, 514

Female pelvis, Tuberculosis of the, 72

Fibrinous bronchitis complicated by massive atelectasis, A case of, 82

Forced vibrations, Notes on percussion and on, 347

Gardner, Leroy U. The cellular reactions to primary infection and reinfection with the tubercle bacillus. II. The cells of peritoneal exudate produced by the local injection of tubercle bacilli into normal sensitized guinea pigs, 379

Glenn, John T., Masucci, Peter, and McAlpine, K. L. Biochemical studies on bacterial derivatives. XII. The preparation of human tubercle-bacillus polysaccharide MB-200 and some of its biological properties, 669

(Glycerol), a growth-promoting substance in the tissues, An attempt to influence the growth of the tubercle bacillus in the animal body by modifying the concentration of, 636

Grabfield, G. Philip, and Miller, Richard H. A study of the relationship of tuberculous cervical adenitis to pulmonary tuberculosis, 598

Growth of bovine tubercle bacilli on Long's synthetic medium, Some chemical changes accompanying the, 116

Growth-promoting active principle in the potato, The nature of the, 203

—— substance (glycerol) in the tissues, An attempt to influence the growth of the tubercle bacillus in the animal body by modifying the concentration of a, 636

Guinea pigs, other methods of inoculating, for the diagnosis of tuberculosis, A comparison of the intracerebral method with, 514

—— ——, tuberculous peritonitis in, The effect of ultraviolet irradiation on, 35

Gwerder-Pedoja, J. Anomalies in artificial-pneumothorax treatment, 717

HABLISTON, CHARLES C. Hernia of the mediastinum, 702

——, —— ——., AND AYCOCK, THOMAS BAYRON. Radical phrenicotomy, 757

HANSEN, OLGA S., AND KING, FRANCES W. Electrocardiographic and roentgenographic studies of the heart in tuberculosis, 310

——, —— ——., —— ——, —— ——. The influence of pulmonary collapse on the electrocardiogram, 320

HARING, KATHERINE M., JOHNSON, TREAT B., AND RENFREW, ALICE G. Some chemical changes accompanying the growth of bovine tubercle bacilli on Long's synthetic medium, 116

HASTINGS, E. G., BEACH, B. A., AND THOMPSON, ISABEL. The sensitization of cattle to tuberculin by other than tubercle bacilli, 218

HEAD, JEROME R. Extrapleural thoracoplasty in the presence of artificial pneumothorax, 734

——, —— ——. The action of the musculi intercartilaginei, 491

Heart, Electrocardiographic and roentgenographic studies of the, in tuberculosis, 310

HENLEY, R. R., AND LE DUC, P. W. Ammonium malate as a source of nitrogen for tubercle bacilli in cultures, 568

Hernia of the mediastinum, 702

HESS, ALFRED, WEINSTOCK, MILDRED, AND STEINBACH, MAXIM M. The effect of ultraviolet irradiation on tuberculous pericarditis in guinea pigs, 35

HILDEBRAND, G. J. Irradiated codliver oil and eosin in pulmonary tuberculosis, 53

HUEPER, W. C. Tuberculosis and cancer, 271

Immunization against tuberculosis by the Langer vaccine, 226

Immunobiology in the diagnosis and treatment of pulmonary tuberculosis, 455

Improved technique for selective pneumothorax, An, 292

Incidence of tuberculous infection in school children, 626

Incubation method of sputum concentration, A review of the, 420

Infection, primary, and reinfection with the tubercle bacillus, The cellular reactions to, 379

——, tuberculous, in school children, The incidence of, 626

Infections, pulmonary, Subacute and chronic, commonly mistaken for pulmonary tuberculosis, 491

Influence of pulmonary collapse on the electrocardiogram, The, 320

Inoculating guinea pigs for the diagnosis of tuberculosis, methods of, A comparison of the intracerebral method with, 514

Intercartilaginei, musculi, action of, The 491

Intestinal tuberculosis, secondary, Pulmonary and, 184

Intracerebral method, A comparison of the, with other methods of inoculating guinea pigs for the diagnosis of tuberculosis, 514

Intrapulmonary lymphoid tissue, The relations of the, to the bronchi in the rabbit, 413

Irradiated codliver oil and eosin in pulmonary tuberculosis, 53

—— ergosterol, oral administration of, A note on the effect of the, on the calcium concentration of the blood-serum in pulmonary tuberculosis, 48

Irradiation, ultraviolet, The effect of, on tuberculous peritonitis in guinea pigs, 35

Jamaica, tuberculosis in, Anatomical characteristics of, 613

JAMESON, EDWIN M. Tuberculosis of the female pelvis, 72

JOHNSON, TREAT B., AND RENFREW, ALICE G. Carbohydrates in biological processes, 655

——, —— ——., RENFREW, ALICE G., AND HARING, KATHERINE M. Some chemical changes accompanying the growth of bovine tubercle bacilli on Long's synthetic medium, 116

KAMINSKY, JACOB, AND DAVIDSON, DORIS L. A note on the effect of the oral administration of irradiated ergosterol on the calcium concentration of the blood-serum in pulmonary tuberculosis, 48

KING, FRANCES W., AND HANSEN, OLGA S. Electrocardiographic and roentgenographic studies of the heart in tuberculosis, 310

KING, FRANCES W., AND HANSEN, OLGA S. The influence of pulmonary collapse on the electrocardiogram, 320

LANG, MILTON C., AND SILLIG, CÉSAR. Oleothorax, 725

Langer vaccine, Immunization against tuberculosis by the, 226

LE DUC, P. W., AND HENLEY, R. R. Ammonium malate as a source of nitrogen for tubercle bacilli in cultures, 568

LEE, Y. W., SCOTT, W. J. M., LYMAN, R. S., AND BISHOP, F. W. Studies on pulmonary acoustics. IV. Notes on percussion and on forced vibrations, 347

LEMON, WILLIS S. Anatomical and physiological aspects of the diaphragm, 685

Leucocyte count, Schilling differential, Red-cell sedimentation and the, 562

LILIEN, ADOLPH A. Immunobiology in the diagnosis and treatment of pulmonary tuberculosis, 455

Lipoids, ether-soluble, of tubercle bacilli, carbohydrates associated with the, Concerning the, 664

Liver, Tuberculosis of the, 585

——, —— —— ——, miliary, Acute, 593

Lobe, pulmonary, accessory, (azygos lobe), The physical signs incident to an, 286

Localized pneumothoraces as a cause of annular shadows in roentgenograms of the chest, 531

LONG, ESMOND R. A chemical view of the pathogenesis of tuberculosis, 467

——, —— ——., AND VORWALD, ARTHUR J. An attempt to influence the growth of the tubercle bacillus in the animal body by modifying the concentration of a growth-promoting substance (glycerol) in the tissues, 636

Long's synthetic medium, chemical changes accompanying the growth of bovine tubercle bacilli on, Some, 116

Lungs, aspergillosis of the, Primary, 267

——, tuberculosis in the, course of, The, 710

LYMAN, R. S., BISHOP, F. W., LEE, Y. W., AND SCOTT, W. J. M. Studies on pulmonary acoustics. IV. Notes on percussion and on forced vibrations, 347

Lymphoid tissue, intrapulmonary, The relations of the, to the bronchi in the rabbit, 413

MACKMULL, GULDEN. The relation of anatomical variations to physical diagnosis. I. The physical signs incident to an accessory pulmonary lobe (azygos lobe), 286

MAGATH, THOMAS B., AND FELDMAN, WILLIAM H. A comparison of the intracerebral method with other methods of inoculating guinea pigs for the diagnosis of tuberculosis, 514

MALTANER, ELIZABETH J., STEVENS, BERNICE S., AND WADSWORTH, AUGUSTUS B. The complement-fixation test in tuberculosis, 539

Mannose and d-arabinose in the polysaccharide isolated from the filtrate of human tubercle-bacillus cultures, The occurrence of, 678

Massive atelectasis, fibrinous bronchitis complicated by, A case of, 82

MASUCCI, PETER, AND MCALPINE, KENNETH L. Biochemical studies of bacterial derivatives. XIII. The occurrence of mannose and d-arabinose in the polysaccharide isolated from the filtrate of human tubercle-bacillus cultures, 678

——, ——, —— ——, —— ——. Biochemical studies on bacterial derivatives. XIV. The preparation and chemical composition of timothy-bacillus polysaccharide MB-200, 682

——, ——, MCALPINE, K. L., AND GLENN, JOHN T. Biochemical studies on bacterial derivatives. XII. The preparation of human tubercle-bacillus polysaccharide MB-200 and some of its biological properties, 669

MATSON, RAY W. Exairesis of the phrenic nerve in the treatment of pulmonary tuberculosis, 1

MCALPINE, KENNETH L., AND MASUCCI, PETER. Biochemical studies of bacterial derivatives. XIII. The occurrence of mannose and d-arabinose in the polysaccharide isolated from the fil-

trate of human-tubercle bacillus cultures, 678

McALPINE, KENNETH L., AND MASUCCI, PETER. Biochemical studies of bacterial derivatives. XIV. The preparation and chemical composition of timothy- bacillus polysaccharide MB-200, 682

——, ——, ——., GLENN, JOHN T., AND MASUCCI, PETER. Biochemical studies on bacterial derivatives. XII. The preparation of human tubercle-bacillus polysaccharide MB-200 and some of its biological properties, 669

Mediastinum, Hernia of the, 702

Medium, Long's synthetic, chemical changes accompanying the growth of bovine tubercle bacilli on, Some, 116

Method, intracerebral, A comparison of the, with other methods of inoculating guinea pigs for the diagnosis of tuberculosis, 514

—— of sputum concentration, incubation, A review of the, 420

Miliary tuberculosis of the liver, Acute, 593

MILLER, RICHARD H., AND GRABFIELD, G. PHILIP. A study of the relationship of tuberculous cervical adenitis to pulmonary tuberculosis, 598

MOERKE, GEORGINE, AND PINNER, MAX. Pleural effusions, 121

MORGAN, HUGH J. Subacute and chronic pulmonary infections commonly mistaken for pulmonary tuberculosis, 491

MORRIS, EVERETT. Tuberculosis of the liver, 585

Mortality from tuperculosis in New York State in 1927 and 1928, recorded and resident, Some aspects of the, 87

Musculi intercartilaginei, action of, The, 491

National Tuberculosis Association, The: Some activities and policies, 337

Nature of the growth-promoting active principle in the potato, The, 203

Negroes, tuberculosis of, epidemiology of, The, 603

Nerve, phrenic, Exairesis of the, in the treatment of pulmonary tuberculosis, 1

New York State, mortality from tuberculosis in, recorded and resident, in 1927 and 1928, Some aspects of the, 87

Nitrogen for tubercle bacilli in cultures, Ammonium malate as a, 568

Note on the effect of the oral administration of irradiated ergosterol on the calcium concentration of the blood-serum in pulmonary tuberculosis, A, 48

Notes on percussion and on forced vibrations, 347

Oil, codliver, Irradiated, and eosin in pulmonary tuberculosis, 53

Oleothorax, 725

OPIE, EUGENE L. Anatomical characteristics of tuberculosis in Jamaica, 613

——, —— ——. The epidemiology of tuberculosis of negroes, 603

Oral administration of irradiated ergosterol, A note on the effect of the, on the calcium concentration of the blood-serum in pulmonary tuberculosis, 48

Pathogenesis of tuberculosis, chemical view of, A, 467

Patient, tuberculous, temperature and associated serum changes in the, A study of the, 549

Pelvis, female, Tuberculosis of the, 72

Percussion, Notes on, and on forced vibrations, 347

Peritonitis, tuberculous, in guinea pigs, The effect of ultraviolet irradiation on, 35

PERLSTEIN, ROBERT N. A case of fibrinous bronchitis complicated by massive atelectasis, 82

PETERSEN, W. F., AND REUTER, KNUTE. A study of the temperature and associated serum changes in the tuberculous patient, 549

Phrenic nerve, Exairesis of the, in the treatment of pulmonary tuberculosis, 1

Phrenicoexairesis in pulmonary tuberculosis, 769

Phrenicotomy, Radical, 757

Physical diagnosis, The relation of anatomical variations to. I. The physical signs incident to an accessory pulmonary lobe (azygos lobe), 286

Physiological aspects of the diaphragm, Anatomical and, 685

PINNER, MAX, AND MOERKE, GEORGINE. Pleural effusions, 121

Pleural effusions, 121
Pneumonoconiosis, Serum-calcium in, 449
Pneumothoraces, Localized, as a cause of annular shadows in roentgenograms of the chest, 531
Pneumothorax, artificial, Extrapleural thoracoplasty in the presence of, 734
——, ——, treatment, Anomalies in, 717
——, selective, improved technique for, An, 292
POLLOCK, WILLIAM C. Collapse therapy in pulmonary tuberculosis, 780
Polysaccharide isolated from the filtrate of human tubercle-bacillus cultures, The occurrence of mannose and d-arabinose in the, 678
—— MB-200, human tubercle-bacillus, The preparation of, and some of its biological properties, 669
—— ——, timothy-bacillus, The preparation and chemical composition of, 682
Potato, The nature of the growth-promoting active principle in the, 203
President, Address of the, 337
Primary aspergillosis of the lungs, 267
—— infection and reinfection with the tubercle bacillus, The cellular reactions to, 379
Principle, growth-promoting active, in the potato, The nature of the, 203
Pulmonary acoustics, Studies on. IV. Notes on percussion and on forced vibrations, 347
—— and secondary intestinal tuberculosis, 184
—— asbestosis, 571
—— collapse, The influence of, on the electrocardiogram, 320
—— infections, Subacute and chronic, commonly mistaken for pulmonary tuberculosis, 491
—— lobe (azygos lobe), accessory, The physical signs incident to an, 286
—— tuberculosis, calcium concentration of the blood-serum in, effect of the oral administration of irradiated ergosterol on the, A note on the, 48
—— ——, chronic, treatment of, Thoracoplasty in the, 739
—— ——, Collapse therapy in, 780
Pulmonary tuberculosis, diagnosis and treatment of, Immunobiology in the, 455
—— ——, Irradiated codliver oil and eosin in, 53
—— ——, Phrenicoexairesis in, 769
—— ——, relationship of tuberculous cervical adenitis to, A study of the, 598
—— ——, Subacute and chronic pulmonary infections commonly mistaken for, 491
—— ——, treatment of, Exairesis of the phrenic nerve in the, 1

Rabbit, The relations of the intrapulmonary lymphoid tissue to the bronchi in the, 413
Radical phrenicotomy, 757
RANDOLPH, B. M. Acute miliary tuberculosis of the liver, 593
Reactions, cellular, to primary infection and reinfection with the tubercle bacillus, The, 379
Recorded and resident mortality from tuberculosis in New York State in 1927 and 1928, Some aspects of the, 87
Red-cell sedimentation and the Schilling differential leucocyte count, 562
Reinfection with the tubercle bacillus, The cellular reactions to primary infection and, 379
Relation of anatomical variations to physical diagnosis, The. I. The physical signs incident to an accessory pulmonary lobe (azygos lobe), 286
Relations of the intrapulmonary lymphoid tissue to the bronchi in the rabbit, The, 413
Relationship of tuberculous cervical adenitis to pulmonary tuberculosis, A study of the, 598
RENFREW, ALICE G., AND JOHNSON, TREAT B. Carbohydrates in biological processes, 655
——, —— ——., HARING, KATHERINE M., AND JOHNSON, TREAT B. Some chemical changes accompanying the growth of bovine tubercle bacilli on Long's synthetic medium, 116
Resident mortality from tuberculosis in New York State in 1927 and 1928, Some aspects of the recorded and, 87

REUTER, KNUTE, AND PETERSEN, W. F. A study of the temperature and associated serum changes in the tuberculous patient, 549

Review of the incubation method of sputum concentration, A, 420

ROBERTS, E. GILMAN, AND ANDERSON, R. J. Concerning the carbohydrates associated with the ether-soluble lipoids of tubercle bacilli, 664

Roentgenograms of the chest, Localized pneumothoraces as a cause of annular shadows in, 531

Roentgenographic studies of the heart in tuberculosis, Electrocardiographic and, 310

RUBIN, ELI H. Pulmonary and secondary intestinal tuberculosis, 184

——, —— ——. The course of tuberculosis in the lungs: its bearing on the indications for artificial pneumothorax and the incidence of tuberculous pneumothorax in the right and left lungs, 710

Schilling differential leucocyte count, Red-cell sedimentation and the, 562

SCHNEIDER, LEO V. Primary aspergillosis of the lungs, 267

School children, tuberculous infection in, The incidence of, 626

SCOTT, W. J. M., LYMAN, R. S., BISHOP, F. W., AND LEE, Y. W. Studies on pulmonary acoustics. IV. Notes on percussion and on forced vibrations, 347

Secondary intestinal tuberculosis, Pulmonary and, 184

Sedimentation, Red-cell, and the Schilling differential leucocyte count, 562

Selective pneumothorax, improved technique for, An, 292

Sensitization of cattle to tuberculin by other than tubercle bacilli, The, 218

Serum-calcium in pneumonoconiosis, 449

Serum changes in the tuberculous patient, A study of the temperature and associated, 549

Shadows, annular, in roentgenograms of the chest, Localized pneumothoraces as a cause of, 531
